

Hazardous Waste – (386) 943-7889

Many household products contain chemicals that are corrosive, flammable, reactive, or toxic. Insecticides, herbicides, cleaners, solvents, used oil, pool chemicals and some batteries and paints are examples of products that contain hazardous ingredients. These products should not be put into ordinary trash or poured down the drain or onto the ground.

If you find discarded hazardous materials, please contact the [Deltona Fire Department](#) at (386) 860-7177.

What are household hazardous wastes?

Household hazardous wastes are products toxic to the environment. They can contaminate our water supply and are common in your home or garage.

These items should not be placed in your garbage. Typical household hazardous wastes include:

- **Used motor oil**
- **Automobile batteries**
- **Household rechargeable batteries**
- **Gasoline**
- **Used paint**
- **Thinners/solvents**
- **Pesticides**
- **Fluorescent lamps**
- **Pool chemicals**
- **Cleaning supplies**
- **Sharps (needles)**

Tip: Keep waste in the original container when possible.
