Deltona Fire Department Will Offer Flu Shots Starting in September

Deltona Fire Department will provide flu shots six days a week this fall beginning on Tuesday, September 1 from 9:00am to 3:00pm. These clinics will enable residents to obtain quick and affordable influenza vaccines administered by licensed insured professionals. The influenza vaccine is the common flu vaccine, which the National Center for Disease Control recommends once a year. For those insured primarily with Medicare Part B, there is no charge for a flu shot. All others will be charged \$25 for the flu shot (cash or check only).

Flu shots cannot be given citizens under the age of 18 or pregnant woman or woman believed to be pregnant. Those who fall into that category should contact their primary care physician. This vaccine will not protect you from the actual swine flu. The CDC is still working on a vaccine that they hope to get out this fall.

In order to try and prevent the spread of germs and the flu, make sure you cover your cough and sneezes with a tissue or your sleeve, not your hands. Hand washing is the best way to prevent germs from spreading. You should do it often.

For additional information on flu shots given by the City of Deltona Fire Department, please contact Samantha Hughes at 386.575.6132.

[Schedule on Page 2]
